

The Water Cycle

Name _____ Date _____

A. Recall the terms of the water cycle. Write the correct term beside the definition.

- _____ 1. The change of water from a gas to a liquid.
- _____ 2. The process in which water becomes a vapor in the atmosphere.
- _____ 3. The method in which water continually moves from the earth to the atmosphere and back again.
- _____ 4. A resource needed by all the living things in an ecosystem.
- _____ 5. The gaseous state of water.
- _____ 6. The forms of condensed water vapor such as snow, rain, or sleet.

B. Draw the water cycle and label evaporation, condensation, precipitation, transpiration, runoff, groundwater, and surface water.

Name ANSWER KEY Date _____

Water Cycle

A. Recall the terms of the water cycle. Write the correct term beside the definition.

Vaporization _____ 1. The change of water from a gas to a liquid.

Evaporation _____ 2. The process in which water becomes a vapor in the atmosphere.

Water Cycle _____ 3. The method in which water continually moves from the earth to the atmosphere and back again.

Water _____ 4. A resource needed by all the living things in an ecosystem.

Water vapor _____ 5. The gaseous state of water.

Precipitation _____ 6. The forms of condensed water vapor such as snow, rain, or sleet.

B. Draw the water cycle and label evaporation, condensation, precipitation, transpiration, runoff, groundwater, and surface water.
